Our solar system comprises of the sun and eight planets. A planet is a large ball made of rock or gas. Every planet circles the sun. The sun is at the center point of the solar system. The planets in our solar system are all dissimilar sizes. The sun is a star. It gives off light and heat.

Venus is the hottest planet. It is hot enough to melt a rocket ship. Venus is about the same size as Earth. Earth is our home. It is also the only planet with oceans. In fact, Earth is covered mostly with water. That is why it is called the Blue Planet.

Mars is called the Red Planet. It has reddish dirt. It also has mountains, volcanoes, ice caps, and canyons. A canyon is a deep, narrow valley with steep sides. Jupiter is the biggest planet. It is made of thick gases. Very strong winds blow on this planet. Saturn is the second-biggest planet. It has rings around it. The rings are made of rock, dust, and ice. One evening, a man was walking along the beach. Soon, he saw something strange. There were many starfish littered on the sand. Perhaps, the low tide of the sea had carried them to the shore and left them behind.

The man walked very cautiously so as not to step on any of them. The animals seemed to be alive. He thought he would pick up some of them and put them back into the water. He knew that the starfish would die if left on the beach. Then, he realised that he could not possibly help all of them, so he chose to do nothing. He continued walking away.

A little further down the beach, he saw a small girl. She was hurriedly throwing one starfish after another back into the sea. The man stopped and asked the girl, "What are you doing?"

"I'm saving the starfish," the child answered.

"Why are you wasting your time?" he said. "There are so many of them. You can't save all, so how does it matter?" argued the man. The child remained silent and continued with what she was doing. Then suddenly she turned around and walked to the man. "Yes, it does matter. It matters to this one," the child explained. She picked up another starfish and hurled it back into the water. The man felt ashamed. He called out to the other people on the beach. They all joined the young girl in her efforts and all the starfish were saved.

Magic Mummy Kisses

Each night I tuck you into bed,
I brush my hand across your head,
And in each tiny little fist
I place a magic mummy kiss.

Full of love and hope so bright
To keep you safely through the night,
Mummy kisses in your hand
To guide you off to slumber land.

If you should dream of monsters mean
Or witches with faces masked in green,
Of snakes that squeeze you oh-so-tight
